US South Alaska Bathymetric Bathy. Charts

The charts listed below are produced by P-Sea Software Co. by using a flat bed scanner. These charts will appear in the background of your plotter and will look exactly like the original paper chart. A flatbed scanner and program is available for \$895. that will allow you to make your own raster charts. Higher-resolution charts require WindPlot Version 6.77 or better to display them.

The cost for each chart produced by P-Sea Software co. is \$49.95 US dollars.
 Most all Hi-Res. charts now available on CD only. See other side for chart locations.
